

La chiesa, elevata a Santuario nel 1858, fu eretta per merito del Cavaliere di Rodi Tommaso Rossi tra la metà e la fine del 1500, in seguito alle continue incursioni barbaresche nel ponente ligure. Dopo alcuni lavori di ampliamento avvenuti agli inizi del XIX secolo venne realizzato, sopra il portico, un alloggio per accogliere i pellegrini. Sotto il porticato si trova un affresco purtroppo in parte deteriorato del noto pittore Maurizio Carrega. All'interno invece spicca la pregevole statua in marmo della Madonna. Dal santuario, per la sua posizione elevata rispetto al borgo, si può godere di una splendida vista su Ospedaletti.

church, became the Sanctuary in 1858, built by Tommaso Rossi, a Rhodes man, between the late 1500s, following the continuous barbarian invasions in Western Asia. After some expansion work in the 19th century, an accommodation for pilgrims was built above the porch. Under this is a fresco; unfortunately, partially damaged by the famous painter Maurizio Caneva. Notably, inside is the valuable marble statue of the Madonna. From the Sanctuary – from its elevated position above town – you can enjoy a splendid view of the Medaletti.

**BY BOAT**

Boatshere regular services sendere a Sanremo o bordighera o Sanremo.

La pista ciclopedonale è il risultato di un'importante opera di riqualificazione dell'ex tracciato della ferrovia. Collega Ospedaletti a San Lorenzo al mare con un suggestivo percorso di circa 24 km quasi interamente pianeggiante e in riva al mare. Partendo da Ospedaletti dopo un breve tratto a contatto con le spiagge si percorre la lunga galleria illuminata di capo Nero al cui interno alcuni pannelli accompagnano i ciclisti e i pedoni con interessanti aneddoti storici sulla famosa gara ciclistica "Milano-Sanremo". Il tratto da San Lorenzo a Ospedaletti venne utilizzato nel Giro d'Italia nel 2015. Ciclisti e pedoni possono oggi usufruire dei servizi per i turisti quali bar, noleggio bici e spiagge lungo il percorso.

The bicycle path is the result of a major redevelopment project of the former tracks of the railway. It connects Ospedaletti to San Lorenzo al Mare with a fascinating bicycle journey of about 24 km; almost entirely flat and close to the sea. Starting from Ospedaletti it soon enters an illuminated tunnel. Inside the tunnel are panels which accompany the cyclists and pedestrians with interesting historical anecdotes of the famous cycling race "Milano-Sanremo". The stretch from San Lorenzo to Ospedaletti hosted the Giro d'Italia in 2015. Cyclists and pedestrians can enjoy the bars, bike rental and beaches along the path.

La piste cyclable de 24 kilomètres en front de mer, relie Ospedaletti à San Lorenzo al Mare et suit le tracé de l'ancienne voie de chemin de fer qui a été mise hors service après une longue oeuvre de démantèlement. La piste est entièrement plate et accessible uniquement aux piétons et aux cyclistes. Après un bref parcours le long des plages d'Ospedaletti, vous emprunterez la gallerie illuminée du Cap Nero parsemée de panneaux narrants la célèbre course cycliste Milan-Sanremo. En 2015, le Tour d'Italie il a utilisé le tronçon de route entre San Lorenzo al Mare et Ospedaletti. Tout le long du parcours, que vous soyez à pied ou à vélo, vous pourrez profiter des plages et vous arrêtez pour une pause dans les nombreux bars que vous croiserez. Vous pourrez louer des vélos à l'heure ou à la journée dans les nombreux stands de location.

Il 1° Aprile del 2014 il Comune di Ospedaletti è entrato a far parte del Santuario Pelagos per la tutela dei mammiferi marini nel Mediterraneo.

In April 2014, the Municipality of Ospedaletti became part of the Pelagos, the Sanctuary for the protection of marine mammals in the Mediterranean.

**La strada principale che percorre e attraversa Ospedaletti è una suggestiva passeggiata lungo un pianeggiante viale alberato. Risale ad un periodo di svolta del comune, quando alcune importanti personalità e società internazionali vennero a conoscenza del clima e del paesaggio di Ospedaletti e decisero di investire sul piano urbanistico del borgo. La società che più si distinse fu la Società Foncière Lyonnaise preparando un moderno piano regolatore e costruendo, oltre ai noti giardini, edifici alberghieri tra cui l'Hotel Regina Margherita, l'Hotel Riviera e il Métropole pronti ad ospitare il turismo elitario europeo di fine ottocento.**

The main road, which runs through Ospedaletti, is a charming walk along a flat tree-lined street. It dates back to a turning period of the town: when some important personalities and international companies were aware of the climate and the landscape of Ospedaletti, and decided to invest in the development of the village. The company that stood out the most was the Société Foncière Lyonnaise which prepared a modern town plan. In addition to the well-known gardens, hotel buildings like the Hotel Regina Margherita, the Hotel Riviera and The Metropole were ready to host European tourism elite in the late

A vertical French flag is positioned on the left side of the page, with its colors (blue, white, and red) running vertically along the left edge. The rest of the page contains text in French.

The image is a composite of several photographs. At the top, there is a map of a cycling route in the Liguria region of Italy. The route is marked with a yellow line on a grey background, showing towns like Nizza, Menton, and Sanremo. A red circle highlights the town of Ospedaletti. Below the map is a photograph of a coastal town with colorful buildings built into a hillside overlooking a body of water. In the foreground, a modern bridge spans the water. To the right of the town, there is a graphic element consisting of a large red heart shape next to the text "www.Suallit.com" and "5 Valli". The overall theme is a promotional image for a cycling tour.

A scenic view of a narrow, sunlit street in a Mediterranean town. The street is paved with cobblestones and lined with buildings painted in warm, earthy tones. In the center, a small, light-colored church or chapel with a bell tower stands prominently. A large, stylized blue location pin with the number '4' is overlaid in the top right corner, indicating a specific point of interest.

The chapel of Sant'Erasmo, or the chiesetta of sailors, was the first parish church of Ospedaletti. Devoted to the cult of St. Giovanni Battista, it was built around the 14th century. After having been host to Pious pope VII on February 11th 1814 and the following construction of the new parish church in 1825, Sant'Erasmo was devoted to the sailors' patron. It was restored by the Italian Naval League in 1940. Rededicated and opened for worship, the chapel now houses models of ancient ships; an anchor of an old sailing ship and a Roman amphora.

The image features the French national flag in the top left corner. The main part of the image shows a scenic view of a coastal town with buildings and palm trees under a clear blue sky.

The image shows a coastal town built on a hillside. In the foreground, there's a rocky beach area with some wooden structures. Behind it, several multi-story buildings with terracotta roofs are built into the hillside, surrounded by green trees and bushes. The town extends towards the background where more buildings are visible against a clear blue sky.
